

our environment *it's a living thing*

LET'S CLEAR THE AIR

You can help clear the air by walking

More people and vehicles travelling more kilometres will affect air quality. More hot days can reduce our air quality because warmer and drier conditions increase the chance of smog, dust storms and fires.

Walking saves money, reduces air pollution and improves your health and fitness. Improve air quality and reduce fuel costs by:

- walking to the local shops, bus stop or just for fun
- walking to your recreational activities and to work when possible
- encouraging your children to walk to school when possible
- walking short distances instead of driving.

Visit cleartheair.nsw.gov.au to find out how cycling, enviro driving and using public transport can also help.
